

## How to measure for YUKI

- (1) Place the kimono neatly with the back of the kimono on top, as shown in the figure.
- (2) Place a ruler at the center of the back of the kimono as if connecting the Sode-guchi and measure.
- (3) Measure the two red dots in the figure.

\*For Awase-kimono, do not include the “fuki” .

\*Measure the Yuki on both sides and check for any errors to get a more accurate measurement.
